SPECIFIC TERMS AND EXCLUSIONS FOR THIS WARRANTY

The current warranty shall be only effective from the date the goods are made available to the client.

This warranty shall be only effective under conditions of normal use of the products and following attached manufacturer's instructions of use for its installation and maintenance.

Fabrics for seating and screens (normal use and appropriate maintenance conditions)

- Manufacturer: RIBAS MONTEIRO. Series: PORTUS LEATHER B. **10 year warranty**
- Manufacturer: GABRIEL. Serie MELANGE. **10 year warranty.**

Exclusions:

- Any other fabric used other than the ones stated will not have any warranty from ACTIU, being the manufacturer responsible for that material and warranty.
- Damages due to the product misuse, non-according to the purpose of the product.
- Products exposed to inappropriate environmental conditions: temperature changes, excessive humidity, direct sun shine, outdoor use in the open air, etc. The manufacturer states that its products are conceived for indoor use except otherwise stated.
- Natural tear and wear for the product within a normal office environment and use of purpose.
- Product repairs and amendments without the express authorization of the manufacturer using original components.
- Product installation non-according to the manufacturer's instructions
- Improper maintenance or non-according to the manufacturer instructions
- The warranty will be proportionally reduced in case of use for more than one 8 hours working shift.
- Electrical power surges or problems as well as electrical network failures in place, originating failures in the electric motors and mechanisms of the product.
- Damages due to acts of vandalism, accidents or due to violent blows or repetitive strains.
- Damages with origin in events of force majeure.
- Fabrics and materials provided by the client.

Liability of ACTIU BERBEGAL Y FORMAS, S.A. shall be limited to the obligations included in this document with the limit of the invoiced amount to the client for the defective product. ACTIU BERBEGAL Y FORMAS, S.A. shall not be liable for loss and/or damages resulting from the liability of the installer/supplier to any other person resulting from an act of omission of the supplier or installer. ACTIU BERBEGAL Y FORMAS, S.A. shall not be liable for any indirect losses of profit.

This warranty is the only one offered by the manufacturer and no other warranty, express or implicit, has been provided by contract, with exclusion of any warranty offered by the dealer under its own responsibility.

TECHNICAL DATA ARTICLE SAVANA

Free of pentachlorophenol, chemical substance detrimental for the ozone layer.

The leather chrome tanned, re-tanned with synthetic resin to give body and elasticity at the same time. The dye is done with aniline in big drum.

The refinition is made with polyurethane in water.

Cleaning of the leather must be made with water and neutral soap, or products supplied by manufacturers of leather.

Test	Test method	Measurement unit	Minimum value	Value obtained
Determination of pH Difference value	EN ISO 4045	pH	3.5 (if the pH value is < 4.0 $\Delta\text{pH} \leq 0.7$)	≥ 3.5 ≤ 0.7
Tear strength, average value	EN ISO 3377-1	N	20 N	≥ 20 N
Colour fastness to cycles of to-and- fro rubbing	EN ISO 11640 / 11641	Dry: 500 cycles	4	≥ 4
		Wet: 80 cycles	3/4	$\geq 3/4$
		Perspiration: 50 cycles	3/4	$\geq 3/4$
Colour fastness to artificial light	ISO 105-B02	Scale of Blues	4	≥ 5
Adhesion of the finish	EN ISO 11644	N/10 mm	2 N/10mm	\geq 2.5N/10m m
Determination of dry flex resistance	EN ISO 5402-1	Cycles	50.000	$\geq 50,000$
Fire resistance	BS 5852-1: 79	Ignition source 0 (cigarette)		Passes
		Ignition source 1 (match)		Passes

LEATHER AS A NATURAL MATERIAL

- Leather is a remarkable natural material. It molds itself to your body and gives you an enveloping sense of comfort.

NATURAL MARKINGS: UNIQUE TO GENUINE LEATHER

- As a natural product, each hide bears the unique traces of its own history. No two hides are exactly alike. The fascinating variety of markings includes: healed scars, barbed wire marks, stretch marks, abrasions, wrinkles, pore patterns and brands.
- Every effort is taken to ensure that the leather on your product has been cut and fitted to look its very best. Great care is taken to use the cleanest sections on the most visible areas of your product.

CARE AND CLEANING

To preserve the original appearance of your new leather furniture, please note these general tips:

- Take care not to mark the leather with sharp objects, including jewelry.
- Avoid long periods of exposure to sunlight or direct heat (including radiators, heating vents, windows, skylights and powerful lamps).
- Do not sit on the back or arms of your furniture. This can cause unwanted wear.
- Do not use saddle soaps or ammonia based solutions.
- The leather cream must be applied on the leather furniture constantly to ensure its maintenance.

IN CASE OF STAINS

Different types of stains require different cleaning techniques.

- Butter, oil and grease: Blot off any standing liquid, as you would on a silk blouse. Don't scrub or try to clean! The oils will be absorbed into the hide over time. Allow to air-dry naturally.
- Water-Based liquids: Blot off any standing liquid and allow to air-dry naturally.
- Wax and gum: We recommend professional leather cleaning. Do not try to remove wax or gum with a sharp object because you may damage the leather surface.
- Ink: We recommend professional leather cleaning company for all instances of ink pen or crayon removal.
